Surrounded by snow-capped peaks, this scenic lake is steeped in mythology and cultural history. Enjoy the cool breeze and rich biodiversity as you explore its tranquil beauty. After the visit, we travel north along the S21 Desert Highway, Xinjiang's first desert expressway. This route connects the Tianshan and Altai Mountains, crossing the vast Gurbantunggut Desert. Moon Bay, Kanas

Day 3

Burqin ~ Kanas ~ Jiadengyu / Hailiutan

Drive
approx. 6 hours /
Around 280 km

08:30-09:00	Enjoy breakfast at the hotel.
09:30-17:00	After leaving the hotel, we journey to the divine garden of Kanas, home to China's deepest moraine-dammed lake. The lake's color shifts in different seasons and lighting, ranging across stunning shades of blue. Surrounded by lush forests, Kanas features three iconic bays – Fairy Bay, Moon Bay, and Wolong (Crouching Dragon) Bay – each with its own unique charm. Fairy Bay is often wrapped in morning mist, creating a dreamlike atmosphere. When viewed against the light, the lake surface sparkles like scattered pearls, earning it the name "Pearl Beach." Moon Bay, shaped like a crescent moon, holds two shoals resembling footprints, known as the Footprints of the Immortals. Wolong Bay is named for its central island, which resembles a dragon coiled in water.
18:00-20:00	Enjoy dinner on your own, then return to the hotel to check in.

Friendly Reminder !

- Please fasten your seatbelt after boarding. The route includes winding mountain roads – if prone to motion sickness, bring patches in advance.
- Most scenic areas require walking, so proper footwear is advised. Kanas has big temperature swings, and rain or snow may cause slippery paths – bring non-slip shoes and warm clothes.
- Accommodation in the scenic area is limited. Few cabins operate in winter, but we'll arrange comfortable twin rooms with heating and hot water.
- Due to the remote location, food is costly and may not suit everyone. Bringing personal snacks and water is recommended.

Day 4

Jiadengyu ~ Hemu

Drive
approx. 1 hour /
Around 80km

08:30-09:00	Breakfast at hotel, then hotel pickup according to pre-set group schedule.
09:30-18:00	Today, we head to Hemu, home to the Tuva people, where traditional wooden homes and a nomadic lifestyle give the village its rustic charm. Walking along the wooden boardwalk, you'll see grasslands, snow-capped mountains, cabins, streams, and grazing animals – a peaceful, picture-perfect setting. A highlight is the wooden suspension bridge over the Hemu River, a popular photo spot. The Hemu sunrise is not to be missed. Check the sunrise time and hike to Ha Deng Viewing Platform, where the morning mist, rising sun, and rows of log cabins with chimney smoke create a stunning, tranquil scene.
18:00-20:00	Enjoy dinner on your own, then return to the hotel to check in.

Friendly Reminder !

- The scenic area is remote with limited access and high logistics costs. Food may be expensive and not suit all tastes – bringing snacks and water is recommended.
- Many parts of the area require walking, and temperature differences between day and night are significant. Wear comfortable shoes and bring warm clothing.
- Accommodation is limited, especially in winter, as few cabins operate. We will do our best to arrange decent twin rooms with electric heating and 24-hour hot water.

Hemu Village

World Ghost City

Day 5**Hemu ~ Five-Colored Beach (Wucaitan) ~ World Ghost City ~ Urho / Karamay**
Drive
 approx. 6 hours /
 Around 470 km

08:30-09:00	Enjoy breakfast at the hotel.
09:30-13:00	Today, we visit Five-Colored Beach (Wucaitan) – a surreal landscape where light and scenery blend. One side is oasis, the other colorful hills. The Irtysh River divides the terrain, creating distinct views on each bank. At sunset, the land glows in shades of red, orange, yellow, purple, and white – truly a place where “one river, two worlds” comes to life.
15:30-18:00	We then continue to our next stop – the World Ghost City. This area features unique Yardang landforms, sculpted over time by wind erosion. The formations take on various shapes – some resemble castles, animals, or even human figures. These surreal landscapes are the result of nature’s power and the passage of time.
18:00-20:00	Enjoy dinner on your own, then return to the hotel to check in.

Friendly Reminder !

- Please follow all scenic area regulations by staying strictly on the wooden boardwalks. Do not trample or climb off-path in order to help protect the fragile and precious landscape features.
- Today’s driving distance will be relatively long, so please remember to fasten your seatbelt at all times, and consider bringing your own water, snacks, and light entertainment for the journey.
- Xinjiang’s climate is generally dry and the UV rays are particularly strong – please take sun protection seriously and prepare sunscreen, sunglasses, and a hat.

Day 6**Urho / Karamay ~ Sayram Lake ~ Jinghe / Bole**
Drive
 approx. 6 hours /
 Around 570 km

08:30-09:00	Breakfast at hotel, then hotel pickup according to pre-set group schedule.
09:30-18:00	Today, we depart the hotel and head toward the pristine Sayram Lake, often called the last teardrop of the Atlantic. Its waters shimmer in hues of green and blue, forming a vivid, dreamlike palette. At the final touch of the Atlantic’s warmth, this lake becomes a mysterious and tranquil haven. In Mongolian, it’s known as Sayram Jor – “lake on the mountain ridge” or “shining sapphire.” In Kazakh, it means “beautiful blessing.” The lake is steeped in poetry and local romance. Its beauty is unforgettable: snow-capped peaks, clear waters, and flocks of swans evoke a sense of serenity unique to this sacred highland lake. Formed 70 million years ago during the Himalayan orogeny, the landscape was shaped by tectonic collision and uplift – creating a breathtaking fusion of mountains and water.
19:00-20:00	Enjoy dinner on your own, then return to the hotel to check in.

Friendly Reminder !

- Please fasten your seatbelt. The road around Sayram Lake includes winding mountain sections and occasional bumps – if you’re prone to motion sickness, it’s recommended to take medication in advance.
- The scenic area requires a fair amount of walking, so we recommend wearing non-slip, comfortable footwear. After rain or during early mornings when temperatures drop, there may be icy patches – please watch your step.
- Sayram Lake is not a natural habitat for swans. Most swan sightings occur in areas such as Kele Yongzhu – thank you for your understanding. Thank you for your understanding and cooperation.

Dushanzi Grand Canyon

Day 7

Jinghe / Bole ~ Dushanzi Grand Canyon ~ Urumqi / Changji

Drive
approx. 6 hours /
Around 485 km

08:30-09:00	Enjoy breakfast at the hotel.
09:30-19:00	Today, we travel to the awe-inspiring Dushanzi Grand Canyon, located 28 km south of Dushanzi District in Karamay, Xinjiang. This natural wonder was carved by the Kuitun River as it flowed from the Tianshan Mountains, cutting into the sloping plains to form dramatic canyon landscapes. The canyon floor spans 100–400 meters, with a rim width of 800–1,000 meters and a vertical drop of up to 200 meters. At 1,070 meters above sea level, it features layered terraces – up to nine levels – covered in desert steppe vegetation. From the rim, you'll see steep cliffs and winding streams forming a classic canyon view.
